

Southern Mouthpiece Biography - Interview

Who is Southern Mouthpiece?

Well, Southern is my seasoning; my mouth is where this different style of literature seam thru; giving a motion picture description of true-life situations. Piece, last but not least are the lyrics, just listen and absorb them, and you will put the puzzle together, which is the truth.

Word is your premature to the game, are signed with a label?

Glad you mentioned that. I have been reality styling since 1996, which is 10 yrs. Studio experience is where I'm premature. But lyrically "I am the Gospel" which means the "Truth". The label I'm signed with is REverse Psychology Records. Engineered and Mastered by Andrew "Drew Dog" Fitzgerald and Ruel "Poppa Son" Parsons. So with my ambition and many 20-hour sessions, and 3 different styles, and flavors combined, we cause a Reversal transition. With the label, it gives me op to enhance all skills needed in the musical world. With that being said, Big Time labels need to show love and pay good money for something that alters your mind for a second against ignorance, than paying millions for that ignorance.

Do you have an Album under this label RPR?

As a matter fact I do. The album is entitled "DDP and RPR Presents Southern Mouthpiece". It isn't titled fancy because I see life as an unfair place for those who try to live life on the Respect thy Neighbor Alma mature. So how are good times? Ft. Lauderdale is blessed with a tropical atmosphere, which gives us time to play year round. There are many "so-called big artist moving to Ft. Lauderdale". We're the only southern state that is not countrified. We got big rims, clubs, and some fine women, but I'm exposing the city in a bio format.

What type of beats is (RPR) bringing to the game?

Picture a “69” Lincoln Continental doing 77 mph on I-95, inhaling T.H.C “The Herbal Creation”, and as you cruise, the beat is on that emotion of feeling which is “Soul, Hip-Hop, Electro and R&B”. We make Soul Food songs, not Fast Food, it stick to your ribs. We have several hit’s soon to be released entitled: Trying to get Paid, Neva No Love, Jaw Pop, Silly World, Summer Breeze, Spoil The Child-Spare the Rod, Momma, Begin to Pray, Psych your Berry, Gemini, and (3) more on the album. It’s a classic.

So buy the album when it is released, because that day is going to arrive when you say “I knew about him when he was making classic premature hits”. I’m trying to get paid; without getting slaved! All approved by the Mercy of God.
